

An encouraging and soothing —
experience, in dental care by an
upcoming but well trained Dentist.

I am running 75, and very panicky
and nervous (impatient) patient for any
kind of physical medicine, but Dr. Rohit
Karnik assured me very gently, with —
affection and soft handed treatment to my
teeth (including molars), cleaned the teeth,
cut where very 'essential' and put cap on
where ^{necessary} and thus he pampered me,
(more than what my own son would have
done) and restored my faith in the tribe
of Doctors, especially Dentists! His
handling of patients like me is very —
appreciable, adorable and promising.
God bless him.
